## Side events

# to the Second Arab Forum for Equality

(UN House, Beirut, 6-7 June 2023)

Greetings and welcome to the Second Arab Forum for Equality "One voice...Equality in food security." This year, we are thrilled to announce that the Forum will feature three exciting side events that promise to be informative, engaging, and fun for all participants.

### Food Fair

First up, we have the Food Fair, where local farmers and distributors will showcase their products at the main entrance of the UN House and engage with participants about their jobs. This is the perfect opportunity to learn about traditional farming methods and how local communities in Arab countries are working towards food security and ending hunger. This event provides local farmers with an equal opportunity with well-established farmers to market their products.

### Diet and Health Corner

Next, we have the Diet and Health Corner at the B1 level next to the main forum hall. A professional diet centre will be offering free consultations and services alongside body mass and weight testing. Participants are welcome to bring their recent medical tests and blood analysis to get professional advice on suitable healthy diets.

### Knowledge and Art Fair

Finally, we have the Knowledge and Art Fair at the B1 level to the right of the main forum hall. Here, the Economic and Social Commission for Western Asia (ESCWA) will showcase the practical tools developed to support member countries in combating poverty, enhancing employment, and improving social protection systems amongst other crucial reforms. The fair will also feature remarkable drawings by students from Arab countries expressing their perception of their "healthy lunch".

***We encourage all participants to join in and participate in these three side events to expand knowledge and maximize benefits from the Forum.***

***We look forward to seeing and welcoming you in person at the Forum!***
